# Rise in Aloe Vera Consumption

There is an **increasing** trend for **Natural & Plant-Based** beverages worldwide as more information is learned about the adverse effects of soft drinks on our **health**. As our customers become aware of the many benefits of consuming natural and organic beverages, the soft drink industry is shifting to more health-**conscious** choices for the consumer. Currently, **Aloe Vera** tops other products as the best **functional** beverage due to its vast **nutritional** and **nutraceutical** properties.

## Aloe Vera and Health Benefits

Aloe Vera contains an abundance of **Polysaccharides**, trace minerals, vitamins, minerals, enzymes and amino acids that have amazing health **benefits** for the immune system. Aloe Vera is low in sodium, fat free, vegan, gluten free and contains no artificial colors or preservatives.
